High-fidelity designs

Design systems

Prototyping

Research:

Generative, Quantitative

Research planning

User interviews

Usability testing

Mentorship

I mentor interns at Shopify, and early career designers on ADPList and at Brainstation.

Work Experience

Shopify, *Remote* *(May 2019 - Present)*
Senior Product Designer

I started as an intern at Shopify and I'm currently a Senior Product Designer on the Financial Solutions team, designing the experience for Shopify Balance. This is a strategic role, on a new product, requiring collaboration across multiple teams and disciplines. I previously led UX for Shopify Tax.

Cognizant, *Singapore* *(Jan 2019 - May 2019)*
UX Designer

I worked at GovTech Singapore on the MCCY grants portal. As part of my role I translated complex information and requirements to create end-to-end design solutions, ran usability sessions, and provided IA, wireframes, and hi-fidelity designs.

Sweetist Inc., *New York* *(Aug 2016 - Jul 2017)*
Software Developer Intern

As a full-stack developer, I worked with a Senior Developer to implement functionality to support referral programs and nation-wide delivery. I also worked to modularize code and create documentation to help facilitate contribution by other developers.

+ more experience on LinkedIn...

Education and awards

National Univerity Of Singapore *(Aug 2014 - Dec 2019)*
Bachelor of Computer Science

Honours with Merit graduate. Specialized in Interactive Media. I was a Scholar under the Infocomm Media Development Authority of Singapore and holder of the Singapore Young Talent Scholarship.
